Professional Summary

Enthusiastic Java Full Stack Developer with a strong foundation in Java, Spring Boot, React.js, MySQL, and Data Structures Algorithms. Skilled in developing responsive web applications, RESTful APIs, and scalable backend systems with clean and optimized code practices. Experienced in frontend development, database integration, and object-oriented programming concepts through hands-on projects and practical implementation. Passionate about problem-solving, software development, and building user-friendly applications while continuously learning modern technologies and industry best practices.

Education

Bachelor of Computer Application 2023 - 2026
Renaissance University *Indore, Madhya Pradesh*

Nav Jagriti Higher Secondary School 2023
Higher Secondary Education (Class 12th)-Commerce Stream *Damoh, Madhya Pradesh*

Nav Jagriti Higher Secondary School 2021
Secondary Education (Class 10th) *Damoh, Madhya Pradesh*

Technical Skills

Programming Languages: Java, JavaScript, SQL
Frontend Technologies: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend Technologies: Spring Boot, Hibernate, REST APIs
Database Management: MySQL
Developer Tools: Git, GitHub, VS Code, Postman
Core Subjects: Data Structures & Algorithms, OOPs, DBMS, Operating Systems

Experience

Java Full Stack Developer Intern 2026
Softvyom Consulting Services Pvt.Ltd. *Remote*

- Developed responsive full stack web applications using React.js and Spring Boot.
- Designed and integrated RESTful APIs for efficient frontend-backend communication.
- Implemented CRUD operations with MySQL database integration using Hibernate ORM.
- Collaborated with development team using Git and GitHub version control workflows.
- Optimized application performance and improved UI responsiveness across devices.

Projects

Employee Management System | Java, Spring Boot, React.js, MySQL

- Built a full stack employee management platform with secure authentication and role-based access.
- Developed REST APIs using Spring Boot for employee data management and business operations.
- Integrated MySQL database with Hibernate for efficient data persistence and retrieval.
- Designed responsive frontend using React.js and Bootstrap for seamless user experience.

Online Food Ordering System | React.js, Spring Boot, MySQL

- Created an online food ordering application with cart management and order tracking features.
- Implemented backend services and APIs for menu, orders, and user authentication.
- Enhanced application usability with responsive UI components and optimized workflows.

Student Result Management System | Java, JDBC, MySQL

- Developed a desktop-based result management application using Core Java and JDBC.
- Implemented database connectivity and optimized SQL queries for efficient record handling.
- Designed modules for result generation, student management, and report processing.

Certifications

- Java Full Stack Development Certification
- Data Structures and Algorithms using Java
- React.js and Spring Boot Training Program

Achievements

- Solved 200+ coding problems on LeetCode platforms.
- Built multiple real-world full stack development projects using Java and React ecosystem.
- Strong understanding of scalable backend systems and frontend optimization techniques.

Soft Skills

- Focused Mindset
- Adaptability
- Responsible
- Dedicated
- Disciplined

Languages

- Hindi – Native Proficiency
- English – Professional Working Proficiency
